

NPC wants to hear from children in Primary School!

Supporting Parents
Supporting Children

We're asking children and young people to tell us what Covid-19, school closures and restrictions have been like for them, and what their hopes for the future are, and we'd love to hear from you too!

You can tell us about your experience and your hopes any way you'd like. You could write down your thoughts, write a story or poem, send photographs, paint or draw pictures, dance, write a song or music, record a video or a short voice clip - it's up to you! You can tell us about your year however you feel like it, but we've included some questions that might give you some ideas.

NPC will put everything together to make a short video of children's experiences of Covid-19 and their hopes for the future.

For more information and the consent form needed go to www.npc.ie

What has Covid-19, schools closing and restrictions been like for you?

How did you feel when your school closed?
How do you feel now that you're back at school?

What has been the best part of the restrictions?
Is there any part you'd like to keep?

What has been the worst part of the restrictions?

What are you excited about doing now?
What are your hopes for the future?

Please keep videos and voice clips to no more than 45 seconds, and if you are sending in a video be sure to flip your phone sideways and film landscape for it to work best!
