

OurKidsCode

CREATIVE COMPUTING FOR FAMILIES

WHAT IS IT?

OurKidsCode is a project aimed at increasing confidence in computing for families with primary aged children. It is a **FREE** creative computing workshop that the whole family can take part in.

HOW DOES IT WORK?

A workshop consists of 2 sessions, over 2 days. Each session is a little over an hour long.

Families will be emailed a Guide and a Zoom link to join the session which will be facilitated by an NPC trainer.

We take the family **STEP BY STEP** through a computing activity where we have some fun and make a computer game 'Rock, Paper, Scissors'

Trinity College Dublin
Coláiste na Tríonóide, Baile Átha Cliath

WHAT ABOUT SKILLS OR EQUIPMENT?

Each family will need access to a computer or laptop to do the coding and a mobile device to connect to the Zoom meeting.

These workshops are designed for complete beginners. No previous coding or computing skills are needed.
