

how to
SALT PAINT

Materials needed:

- White Glue
- Table Salt
- Watercolour paints
- Card – Regular paper is too light

Directions to Make Salt Painting:

1. Use white glue to draw a design or picture onto a piece of card. I like to cut small pieces that fit onto a paper plate.

2. Once you are finished with your glue drawing, liberally sprinkle salt onto the glue.

3. Gently shake off onto the paper plate and set the plate aside.

4. Place your salt covered card stock onto a flat surface covered with newspaper or wax paper.

5. Use watercolour paints to gently paint onto the salt.

6. You won't need a lot of water, but the more pigment color you have on your brush the better. Once finished, set aside to dry completely.
